

Did you pay the correct childcare fee in 2014?

Paying the correct childcare fee is a question of fairness. For that reason, Uddevalla Municipal Authority will carry out a review of the preschool, family day nursery and after-school centre fees paid in 2014. The information that compared with your family's assessed annual income according to the Swedish Tax Agency records. In the future, fees will be reviewed each year.

Have you paid too little or too much?

As a parent or guardian you are responsible for notifying your correct income and family circumstances to ensure that the fee for your household is correct. If the review shows that the wrong childcare fee has been paid, an adjustment will be made. If the fee you paid was too low, we will send a retroactive invoice. If you paid too much, the authority will arrange for repayment.

A question of fairness

It is a question of fairness that families are treated equally and pay a fee in accordance with the current rates. It is just as important for us to repay someone as to demand payment.

Fee reviews are conducted with a two-year time lapse as information from the Tax Agency is not available any earlier.

The vast majority of parents/guardians have paid the correct fee and will not be affected by this.

When will the review take place?

We will arrange for repayments and invoices for 2014 to be sent out from summer 2016. In the future, a review will be conducted each year.
